

# Committee Governance Process for Institutional Effectiveness

## United Tribes Technical College

### UTTC Committees

**Description of the Process:**  
This shared governance process is designed to facilitate communication among all entities across campus and to enhance institutional effectiveness.

- At least one member from each UTTC Committee serves as a liaison on the Institutional Effectiveness Committee (IEC).
- The liaisons are responsible for bringing information (for potential policies and procedures) forward from their respective groups and also relaying information back to their groups from the IEC.
- The IEC communicates with Administrative Council and, in turn, shares topics with liaisons to take back to their groups.
- Information is passed to the President and Board of Directors. Input or final approval is documented in the BOD meeting minutes. The approved policies and procedures are posted on the Institutional Effectiveness Portal.

### Other Groups

- All Hands Meeting
- Academic Council (formerly Dept. Chairs Meeting)
