

## **Section IV: Policy**

### **Course Waiver Policy**

United Tribes Technical College Registrar's Office will waive the requirements for OSHA 10 and/or First Aid/CPR for students enrolled in the Welding Technology and Heavy Equipment Operations certificate programs if the student can provide proof of current certification at the time of semester registration. Each one of the certifications must be valid at the time the student graduates from the respective program. The waiver for these two courses will apply only to students in the certificate programs.

If a student fails to provide the current certification card for OSHA 10 and/or First Aid/CPR before census date on the UTTC academic calendar, the student will be required to register for and complete the course at UTTC and will be charged tuition and fees for the course.

\*First Aid/CPR card must include certification in Adult First Aid, CPR, and automated external defibrillator (AED).
